

#### The Member Secretary,

State Level Environmental Impact Assessment Authority (SEIAA), Department of Ecology & Environment, Room No. 709, 7th Floor, IV-Gate, M.S. Building, Bengaluru – 560001.

Dear Sir.

Sub: Half-yearly Environment Clearance compliance report for the period of

April 21 to Sept 21

Ref: Environmental Clearance EC No.30: CON:2009 dt. 10.06.2010 & modified EC No. SEIAA

29 CON 2019 dated 23-01-2020.

# **Site Details:**

Embassy Manyata Business Park (EMBP),

situated at Outer Ring Road, Nagawara,

Bangalore - 560045.

K	EMBP EC COMPLIANCE REQUIREMENTS					
S. N	EC Conditions	Status As on 30th Sept 21				
I	LEGAL COMPLIANCE					
The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.						
2	The approval of the Competent Authority shall be obtained for structural safety of the constructions due to earthquakes, adequacy of firefighting equipment etc as per National Building Code including protection measures from lightening etc.	certificates has been taken from the competent authority as enclosed a				
3	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1980, in case of diversion of forest land for non-forest purpose involved in the project.	situated in notified KIADB area within				
4	The proponent shall obtain clearance from the National Board for Wildlife, if applicable					
5	The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.	Noted, Applicable CFE Exp received from KSPCB and attached as Annexure -2.				
6	The project proponent shall obtain the necessary permission for drawl of ground water/ surface water required for the project from the competent authority.					
7	The certificate of adequacy of available power for the agency supplying power to the project along with the load allowed for the project should be obtained	Same has been Complied.				
8	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil, Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.	Departments. As Fire NOC, Civil Aviation approvals have been already				
9	The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste Management Rules, 2016 shall be followed.					
10	The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly.	1				
II	AIR QUALITY MONITORING AND PRESERVATION					
11	Notification GSR 94(E) dated 25.01.2018 of MoEF & CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.	Noted and same being complied throughout the construction by sprinkling water on construction materials, sprinkling water on roads to ensure dust suppression and by cleaning the construction vehicle tyres before they leave the sites.  Reference images are attached as Annexure - 3				

12	A management plan shall be drawn up and implemented to contain the current exceedance if any in ambient air quality at the site.	Noted and same shall be complied. Reference reports is attached as Annexure-4
13	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/ criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5) covering upwind and downwind directions during the construction period.	Noted and same shall be complied to ensure periodical monitoring of AAQ
14	Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.	Noted and we will abide by the condition.
15	Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/ tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.	Noted and same being complied as per the enclosed Images. Ref images are attached in Annexure -5
16	Sand, murram, loose soil, cement, stored on site shall be	Noted and same being complied as per
	covered adequately so as to prevent dust pollution.	the enclosed images in Annexure -6.
17	Wet jet shall be provided for grinding and stone cutting.	Note and same being complied.
18	Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.	Noted and same being complied as per the enclosed images in <u>Annexure -7</u>
19	All construction and demolition debris shall be stored at site (and not dumped on the roads or open spaces) before they are properly disposed. All demolitions and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Rules 2016	U 1 1
20	The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to standards prescribed under Environmental (Protection) Rules for air and noise emission standards.	Note and same being complied. Ref Reports is attached an <u>Annexure –9</u>
21	The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.	
III	WATER QUALITY MONITORING AND PRESERVATI	
22	The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rainwater.	Noted and same shall be ensured. Ref drawing is attached as Annexure- 10

23	Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.	[ [ [ [ [ [ [ [ [ [ [ [ [ [ [ [
24	Total fresh water use shall not exceed the proposed requirement as provided in project details.	Noted and same shall be complied. Ref DBR report is attached in Annexure-35
25	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports	Ref DBR report is attached in Annexure-35
26	A certificate shall be obtained from local body supplying water, specifying the total annual water availability with local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration and the balance water available, this should be specified separately for ground water and surface water sources, ensuring that there is no impact on the other users.	
27	At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.	Noted and same shall be complied. Ref drawings are attached in Annexure-36
28	Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.	
29	Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the project area.	
30	Separation of grey and black water shall be done by use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.	Noted and same shall be complied as it's a part of our design process. Same
31	The project proponent shall identify a suitable source of treated water for construction and submit an MOU/Agreement with such suppliers. If so, the supplier identified shall be responsible for treatment of water with appropriate technology to the standards required for constriction purpose.	operational building's STP has been taken for the construction purpose.
32	The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016.	it's a part of our design process. Same has been already complied in

33	A rain water harvesting plan needs to be designed. where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.	Noted and same shall be complied as it's a part of our design process. Same has been already complied in operational buildings. Provision of Ground water recharge pits are provided all along the sideways of main roads within the park. Ref drawing is attached as <a href="mailto:annexure-21">annexure-21</a>
34	All recharge should be limited to shallow aquifer.	Noted and same shall be complied.  annexure- 21
35	No ground water shall be used during construction phase of the project.	Noted and No ground water used for construction purpose.
36	Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering	Noted and shall be complied.
37	Sewage shall be treated in the STP based on MBBR/SBR Technology with tertiary treatment i.e. Ultra Filtration. The treated effluent from STP shall be recycled/re-used for flushing, landscaping and HVAC cooling. No treated water shall be discharged to municipal drain.	Noted and same has been complied.  Detailed DBR report is attached as  Annexure-14
38	No sewage or untreated effluent water would be discharged through storm water drains.	Noted and same shall be complied.
39	The existing water body, canals and rajakaluve and other drainage and water bound structures shall be retained unaltered with due buffer zone as applicable and maintained under tree cover.	Noted and same shall be complied.
40	Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of environment, Forest and Climate Change Natural treatment systems shall be prompted.	Noted and same shall be complied. Detailed DBR report is attached as  Annexure-15
41	Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.	Noted and same shall be complied. Same being complied in already existing buildings as per enclosed reports as <b>Annexure-16</b>
42	Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013	Noted. Sludge from the sewage treatment plants being used for composting and dried sludge being used as manure for landscaping within the premises.
IV	NOISE MONITORING AND PREVENTION	
43	Ambient noise levels shall conform to residential area both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction	Noted and ANL test are conducting on both construction & operational buildings. Ref reports are attached as <a href="Maintenance-Annexure-17">Annexure-17</a>

	phase, so as to conform to the stipulated standards by CPCB / SPCB.			
44	Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.	Noted and same shall be complied.		
45	Acoustic enclosures for DG sets, noise barriers for ground- run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.	Noted and same shall be complied, same has been already complied in operational buildings. Ref Phot copies are attached as <b>Annexure-18</b>		
46	The project proponent shall ensure the time specification prescribed by the Honourable High Court of Karnataka in WP. No. 1958/2011 (LB - RES - PIL) on 04.12.2012 for different activities involved in construction work	Noted and same being complied.		
V	ENERGY CONSERVATION MEASURES			
47	Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC.	Noted and same shall be ensure to meet the ECBC guidelines.		
48	Outdoor and common area lighting shall be LED.	Noted and same shall be complied. Same has been already complied in operational buildings. <b>Annexure-19</b>		
49	Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC: specifications.	Noted and same has been incorporated during the design stage as per the ECBC specifications. Details are attached in <b>Annexure-37</b>		
50	Energy conservation measures like installation of LED for lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.	Noted and same being complied.		
51	Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.	Noted and same being complied. We are procuring nearly 60-70% of Electrical-power from Solar Power Plant that is installed in Bellary district of Karnataka-State; under OPEN-ACCESS permissions of DISCOMs. In some cases, the contribution of renewable-energy is about 80-85% as well. Such power-source is settled / offset against overall electrical-consumption of a Building month-onmonth 100KVA roof top solar panel has been installed, generated energy being used for common area lightings.		
52	Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet	Not applicable, how ever we are procuring solar power under open access PPA as mentioned above (Point No:51)		

VI	WASTE MANAGEMENT	
53	A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.	Noted and same shall be complied.
54	Disposal of muck during construction phase shall not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	Noted and same being complied.
55	Separate wet and dry bins must be provided and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.	different types of waste has bee
56	Organic waste compost/ Vermiculture pit/ Organic Waste Converter within the premises with a minimum capacity of 0.3 kg /person/day must be installed.	
57	All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.	Noted, same being complied in operational building as non biodegradable waste being disposed to BBMP approved waste handler for further process and disposal.
58	Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board	Noted and same being complied.
59	Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.	Noted, same being complied. Fly asl has made bricks have been used in construction activity.
60	Fly ash should be used as construction material as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in construction	Noted, same being complied. Fly asl has made bricks have been used in construction activity.

61	Any wastes from construction and demolition activities	Noted, same being complied.				
	related thereof shall be managed so as to strictly conform to					
	the Construction and Demolition Waste Management Rules, 2016.					
62	Used CFLs/TFLs/LED should be properly collected and	Complied, All are E wastes are				
-	disposed off/ sent for recycling as per the prevailing					
	guidelines/ rules of the regulatory authority to avoid					
	mercury contamination.	,				
VII	GREEN COVER					
63	No tree cutting/transplantation should be carried out unless	Noted, same shall be complied. Please				
	exigencies demand. Where absolutely necessary, tree					
	transplantation shall be with prior permission from the	in Annexure-23				
	concerned regulatory authority. Old trees should be retained					
	based on girth and age regulations as may be prescribed by					
	the Forest Department. Plantations to be ensured species	.9				
(1	(cut) to species (planted).	N. ( 1 111 11 11 11 11 11 11 11 11 11 11 1				
64	A minimum of 1 tree for every 80 sqm of land should be	Noted same shall be complied.				
	planted and maintained. The existing trees will be counted					
	for this purpose. The landscape planning should include plantation of native species. The species with heavy foliage,					
	broad leaves and wide canopy cover are desirable. Water					
	intensive and/ or invasive species should not be used for					
	landscaping.					
65	Where the trees need to be cut with prior permission from	Noted same shall be complied.				
	the concerned local Authority, compensatory plantation in	Troted same shan be complied.				
	the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that					
	is cut) shall be done and maintained. Plantations to be					
	ensured species (cut) to species (planted).					
66	Topsoil should be stripped to a depth of 20 cm from the	Same has been complied.				
	areas proposed for buildings, roads, paved areas, and					
	external services. It should be stockpiled appropriately in					
	designated areas and reapplied during plantation of the					
*****	proposed vegetation on site.					
VIII	TRANSPORT					
67	A comprehensive mobility plan, as per MoUD best practices	Noted and same being complied with				
	guidelines (URDPFI), shall be prepared to include	proper traffic management plan and				
	motorized, non-motorized, public, and private networks.  Road should be designed with due consideration for	deployment of dedicated trained traffic wardens to ease the vehicles and pedestrian movement within the park.				
	environment, and safety of users. The road system can be					
	designed with these basic criteria.	Proper signages have been displayed,				
	a. Hierarchy of roads with proper segregation of vehicular	segregation of roads with one way,				
	and pedestrian traffic.	two-way, only entry and only exit has				
	b. Traffic calming measures.	been made with dedicated traffic				
	c. Proper design of entry and exit points.	controllers at each junction. Ref Copy				
	d. Parking norms as per local regulation.	is attached as annexure- 24				
68	Vehicles hired for bringing construction material to the site	Noted, same being complied as per the				
	should be in good condition and should have a pollution	enclosed vehicles PUC test reports.				
	check certificate and should conform to applicable air and	Annexure-25				
	noise emission standards be operated only during nonpeak					
	hours.					

69	A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of roads within a 5 KM radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 5 KM radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the state Urban Development department and P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.	submitting the detailed traffic management and decongestion plan to SEIAA. Submitted plans being followed to ensure proper traffic management inside and outside the project. Attached as <b>Annexure-26</b>			
70	Provide at the main entrances bell gates, which are located at least 12' inside the boundary of the project to enable smooth flow of traffic on the main road leading to the entrance.	Same has been complied.			
IX	HUMAN HEALTH ISSUES				
71	All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.	All Construction workers are provided with good quality personal protective equipment's (PPE's) including nose mask, Hard hats, Gumboots, reflector jackets and goggles to ensure health & safety of the workers, ref images are attached as <b>Annexure-27</b> .			
72	All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase. Sufficient number of toilets/bathrooms shall be provided with required mobile toilets, mobile STP for construction workforce.				
73	For indoor air quality the ventilation provisions as per National Building Code of India.	Noted and same shall be complied, as same has been already in practice in operational buildings. Ref report is attached as an <b>Annexure-29</b>			
74	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented	A detailed Hazard Identification and Risk Assessment study has been conducted and control measures are implemented. Onsite Emergency Plan ahs been made and followed.			
75	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	No provision of labour camp a construction site. However, construction vendor has provided a proper labour camp with all amenities outside the construction site for the provider.			
76	Occupational health surveillance of the workers shall be done on a regular basis.	Being Complied. Ref Images are attached in <u>Annexure-31</u>			
77	A First Aid Room shall be provided in the project both during construction and operations of the project.				

X	CORPORATE ENVIRONMENT RESPONSIBILITY (CI	ER)
78	The project proponent shall comply with provision contained in OM vide F.No.22-65/2017-IA.III dated 1st May 2018, of the Ministry of Environment, Forest and Climate Change as applicable, regarding Corporate Environment Responsibilitiy and shall execute the action plan with a total cost of not less than Rs. 150 Crores towards the construction cost of the Flyover between Thanisandra Junction and Nagawara Lake in addition to the Rs. 32 Crores incurred to acquires a parcel of the land for above flyover project, as submitted vide letter dated 31-12-2019.	
79	The company shall have a well laid down environmental policy duly approved by the Board of directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/ deviation/violation of the environmental / forest / wildlife norms /conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or stakeholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.	Well defined Environmental policy has been introduced in line with Environmental Management system: ISO-14001, 2015. All our operations are provided with well-defined Standard operating procedures to ensure minimal/reduced impact on surrounding environment. Please find the enclosed IMS policy in Annexure-33
80	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization. The project proponent enter into an agreement with the prospective buyers/ tenants to ensure that they maintain the cell and take care of all environment concerns during the operation phase of the project. In addition, sufficient fees should be levied so as to raise a corpus fund to maintain the Environment cell.	Complied. Expert team of environment health and safety professionals have been hired and Environmental management cell has been formed to handle all environment, health & safety concerns of the operations. Dedicated Environmental health & safety fund has been allocated to ensure all EHS activities are smoothly managed at all time.
81	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry of Environment, Forest and Climate Change/Regional Office along with the Six Monthly Compliance Report.	Agreed and same shall be complied
XI	MISCELLANEOUS	
82	The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.	Same has been complied as per enclosed paper cuts as an Annexure- 34
83	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt	Same has been complied.

84	The Project Proponent shall obtain the construction material such as stones and aggregates etc. only from the approved quarries and other construction material shall also be procured from the authorized agencies/ traders.	
85	The project proponent shall not use Kharab land if any for any purpose and keep available to the general public duly displaying a board as public property. No structure of any kind be put up in the Kharab land and shall be afforested and maintained as green belt only.	
86	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.	Noted. We will ensure the same
87	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.	Being complied. Last compliance report submitted in May 21 for the period of Oct 20 to March 21.
88	The project proponent shall submit the environmental statement for each financial year in Form -V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.	Being complied. Annual Environment Statement in Form-V for the year 2020-21 has been submitted to KSPCB in Sep 2021. Ref is attached in <u>Annexure-38</u>
89	The project proponent shall inform the Regional Office as well as the Ministry of Environment, Forest and Climate Change, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.	Noted. We will ensure the same
90	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.	Noted and we will adhere to the same
91	The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report and also that during their presentation to the Expert Appraisal Committee.	
92	No further expansion or modifications in the plan shall be carried out without prior Environmental Clearance from the competent authority.	Noted and we will adhere to the same
93	Concealing factual data or submission of false/ fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.	
94	The State Level Environment Impact Assessment Authority, Karnataka may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.	Noted.
95	The SEIAA, Karnataka reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.	Noted & will ensure.
96	The Regional Office of MoEF&CC shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/ monitoring reports.	We will extend full co-operation to the Officials concerned.

97	provisions of the Water (Prevention & Control of Pollution) Act. 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundry Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.					
98	Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.					
99	Copies of six-monthly compliance on the conditions of the Environmental Clearance shall be submitted to SEIAA, Karnataka.					
XII	SPECIFIC CONDITIONS					
100	The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.					
101	15% of the parking space shall be reserved for electric vehicles with recharging facility.	Noted. We will ensure the same ref is attached in <u>Annexure-39</u>				
102	The proponent shall identify suitable place (KIOSK) for collection and storage of E-Wastes generated within the premises and shall be disposed of regularly only with the KSPCB authorized E-waste recyclers.	area has been provided to ensure proper				

Thanking you,

Yours faithfully

Bengaluru, Karnataka - 560025

Name and address of Architect: Andy Fisher Workshop Private Limited

203, Henderson Road, #06-06, Henderson Industrial Park, Singapore – 159546

This is to certify that I am the Consulting Structural Engineer for the Proposed Manyata Office Block 1 and 2 located Survey No. 82/1P, 82/2P, 83/1P, 83/2P, 84P, 85/2P, 85/5P, 85/6P, 85/7P of Manyata Embassy Business Park, Nagawara, Bengaluru and that the foundations and columns of the Building have been designed to take the superimposed load of the Ground + 10 Upper Floors.

Based on the Completion certificate received from Project Management Consultants, Synergy property Development Services Pvt. Ltd date Dec 11, 2019, all structural work is carried out as per our structural designs and drawings. On this basis I certify that the said structure is safe and stable for the purpose for which it is intended.

The design of the structure conforms to I.S. 456:2000 and I.S: 875. It is further certified that the structure has been designed and constructed for the earthquake forces as per the requirements of I.S: 1893-2016. Adequate soil investigation work was carried out for design of foundation.

For Ramboll India Pvt.Ltd.

**Consent Order No:** CTE-323806 **PCB ID:** 11589 **Date:** 18/02/2021

To,

The Applicant,

Manyata Promoters Pvt Ltd Nagawara, Bangalore

Sir,

Sub: Consent for Expansion of the unit in the Existing premises under the Water (Prevention & Control of Pollution)

Act,1974 & the Air (Prevention & Control of Pollution) Act, 1981

Ref: 1.CFE expansion application submitted by the organization on 27/05/2020 at Regional Office KSPCB

2.Inspection of the project site by Regional

on 12/06/2020

Officer

3. Proceedings of the CCM date held on

With reference to the above, Karnataka State Pollution Control Board hereby accords **Consent for Expansion** of the unit in the existing premises under the Water (Prevention & Control of Pollution) Act, 1974 & the Air (Prevention & Control of Pollution) Act, 1981 at the location indicated below subject to the terms & conditions indicated in Schedule Annexed.

#### **Location:**

Name of the Industry: Manyata Promoters Pvt Ltd

Address: -, Embassy Manyata Business Park, Outer Ring Road

Industrial Area: Not In I.A, Nagawara, Rachenahalli, Thanisa,

Taluk: BBMP- W- 6, District: Bangalore Urban

# **CONDITIONS:**

- 1. The Consent for Expansion is granted considering the following activities:
- 2. This consent for establishment is valid up to 17/02/2027 from the date of issue.
- 3. The applicant shall not undertake further expansion/diversification without the prior consent of the Board.
- 4. The applicant shall obtain necessary license/clearance from other relevant statutory agencies as required under the law.

# I. WATER CONSUMPTION:

1. The source of water shall be from bwssb and shall obtain prior permission from the concerneds

authority. Total water consumption shall not exceed as indicated below:

Page-1 e\_outwardno39087--18/02/2021 Printed through XGN

Consent For Establishment -Expand (CFE-EXP)

Consent No. CTE-323806 Valid upto: 17/02/2027

Industry Colour: RED Industry Scale: LARGE

Karnataka State Pollution Control Board Parisara Bhavana,No.49, Church Street,Bengaluru-560001 Tele: 080-25589112/3, 25581383 Fax:080-25586321

email id: ho@kspcb.gov.in

(This document contains 5 pages including annexure & excluding additional conditions)

#### II. WATER POLLUTION CONTROL:

- 1. The discharge from the premises of the applicant shall pass through the terminal manhole/manholes where from the Board shall be free to collect samples in accordance with the provisions of the Act/Rules made there under.
- 2. The sewage/domestic efflluent shall be treated in Septic Tank with Soak pit. No overflow from the soak pit is allowed. The septic tank and Soak pit shall be as per IS 2470 Part-I & Part-II.
- 3. The Effluent Treatment Plant proposal is generally agreeable and shall be constructed as per the specifications mentioned in the proposal and it shall consist of following units.
- 4. The industry shall treat the domestic wastewater in the Sewage Treatment Plant (STP) as per the proposal submitted. It shall meet the standards specified in Annexure-I & shall be used on land for gardening/greenbelt within the factory premises.
- 5. If the treatment plant does not achieve the effluent standards stipulated in this consent order and/ or if it is found to be inadequate, then the industry shall have to modify the units so as to meet the standards with prior consent of the Board.
- 6.All the treatment units shall be totally impervious.
- 7. The applicant shall provide separate flow meter for measuring the quantity of effluents through ETP and separate energy meter and shall maintain a logbook for the verification of inspecting officers.
- 8. The applicant shall operate and maintain Treatment Plant continuously and maintain at all times to achieve the stipulated standards as per Annexure-I & also maintain regular log-books/operation records.
- 9. There shall not be any increase in generation of Domestic sewage due to proposed expansion.
- 10. There shall be no bypass or discharge of effluents either within or outside the factory premises under any circumstances.
- 11. There shall not be any discharge of untreated trade/domestic sewage inside/outside the industry premises.
- 12. The applicant shall explore the possibility of reducing freshwater consumption & adopt recycling/ reuse.

# III. AIR POLLUTION CONTROL:

- 1. The type of emissions, stack heights and the air pollution control equipment for the air pollution control sources to be installed as specified in **Annexure-II.**
- 2. The discharge of emissions from the air pollution sources shall pass through the stacks/chimneys mentioned in **Annexure-II** where from the Board shall be free to collect the samples at any time in accordance with the provisions of the Act and Rules made there under.
- 3. The stacks shall have port holes and platforms as per the guidelines specified in **Annexure-II** to facilitate monitoring of emissions.
- 4. The applicant shall upgrade/modify/replace the control equipments if they are found inadequate to meet the standards stipulated with Prior permission of the Board shall be obtained for the same.
- 5. There shall not be any other sources of air pollution from the proposed expansion.
- 6. If there is going to be any new air pollution sources in future, the project authorities shall apply and obtain consent for establishment for the same from the Board.
- 7. Any fugitive emission has to be controlled to meet the ambient air quality standards.

# IV. SOLID WASTE (OTHER THAN HAZARDOUS WASTE) DISPOSAL:

- 1. The applicant shall collect, treat and dispose off all solid waste generated during construction i.e. Muck, and Garbage after construction if any in such manner so as not to cause environmental pollution.
- 2. The details of solid waste generated from the expansion activity shall be as follows

Page-2 e\_outwardno39087--18/02/2021 Printed through XGN

# Consent For Establishment -Expand (CFE-EXP)

Consent No. CTE-323806 Valid upto: 17/02/2027

Industry Colour: RED Industry Scale: LARGE

Karnataka State Pollution Control Board Parisara Bhavana,No.49, Church Street,Bengaluru-560001 Tele: 080-25589112/3, 25581383 Fax:080-25586321

email id: ho@kspcb.gov.in

(This document contains 5 pages including annexure & excluding additional conditions)

# V.HAZARDOUS AND OTHER WASTES (MANAGEMENT & TRANSBOUNDRY MOVEMENT) RULES 2016:

- 1. The industry shall apply and obtain authorization under Hazardous and Other Wastes (Management & Transboundry Movement) Rules 2016, and comply with the conditions of the authorization. The applicant shall apply for authorization along with the consent for operation (CFO) application under the Rules in Form-I to obtain authorization and comply with conditions.
- 2. There shall not be any Hazardous Waste generation from the proposed expansion project.

#### VI. NOISE POLLUTION CONTROL:

1. The applicant shall ensure that the ambient noise levels within its premises shall not exceed the limits i.e 75 dB(A) Leq during day time and 70 dB(A) Leq during night time as specified in the Environment (Protection) Rules.

#### VII. GENERAL CONDITIONS:

- 1. The applicant shall transport and store the raw materials in a manner so as not to cause any damage to environment, life and property. The applicant shall be solely responsible for any damages to environment.
- 2. The applicant shall not commission the proposed plant for trial or regular production unless necessary pollution control measures are installed as specified in this Consent Order.
- 3. The applicant shall ensure that the treatment plant and control equipments are completed and commissioned simultaneously along with construction of the factory and erection of machineries.
- 4. The applicant shall not change or alter (a) raw materials or manufacturing process, (b) change the products or product mix (c) the quality, quantity or rate of discharge/emissions and (d) install/replace/alter the water or air pollution control equipments without the prior approval of the Board.
- 5. The applicant shall immediately report to the Board of any accident or unforeseen act or event resulting in release of discharge of effluents or emissions or solid wastes etc. in excess of the standards stipulated. And the industry shall immediately take appropriate corrective and preventive actions under intimation.
- 6. The applicant is liable to reinstate or restore, damaged or destroyed elements of environment at his cost, failing which the applicant/occupier as the case may be shall be liable to pay the entire cost of remediation or restoration in advance an amount equal to the cost estimated by Competent Agency or Committee.
- 7. The Board reserves the right to review, impose additional condition or conditions, revoke, change or alter the terms and conditions.
- 8. This CFE does not give any right to the Party/Project Authority/Industry to forego any *other* legal requirement that is necessary for setting/operation of the plant.
- 9. The applicant shall furnish point wise compliance to the conditions given under this consent for establishment within 30 days.
- 10. The applicant shall take measures to develop green belt all along the periphery of the factory premises.
- 11. This consent is issued without prejudice to any Court Cases pending in any Hon'ble Court
- 12. The applicant shall comply with all the Conditions and guidelines issued by the Board from time to time.

Please note that this is only consent for establishment issued to you to proceed with the formalities for expansion of the industry and does not give any right to proceed trial/regular production. For this purpose, separate consents of the Board for discharge of liquid effluent and the emissions to the air shall have to be obtained by remitting prescribed consent fee. The application forconsent has to be made 45 days in advance of commissioning for trial production of the plant.

The receipt of this letter may please be acknowledged.

Consent Fee paid : Rs. 200000

# LOCATION OF SAMPLING PORTHOLES, PLATFORMS, ELECTRICAL OUTLET.

1. Location of Portholes and approach platform:

Portholes shall be provided for all Chimneys, stacks and other sources of emission. These shall serve as the sampling points. The sampling point should be located at a distance equal to at least eight times the stack or duct diameter downstream from any flow disturbance such as bend, expansion, contraction and visible flame. Further, the selected port has to be at least 2 stack/duct diameter before stack/duct exit or from any other flow disturbance. For rectangular stacks, an equivalent diameter can be calculated using following expression.

Equivalent Diameter = 2 (Length x Width)
------(Length + Width)

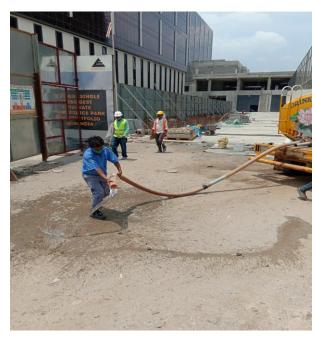

- 2. The diameter of the sampling port should not be less than 100mm dia". Arrangements should be made so that the porthole is closed firmly during the non sampling period.
- 3. An easily accessible platform to accommodate 3 to 4 persons to conveniently monitor the stack emission from the portholes shall be provided. Arrangements for an Electric Outlet Point off 230 V 15 A with suitable switch control and 3 Pin Point shall be provided at the Porthole location.
- 4. The ladder shall be provided with adequate safety features so as to approach the monitoring location with ease.

#### Karnataka HC notice on plea on bail given to **Nithyananda**

SPECIAL CORRESPONDENT

The High Court of Karnataka on Friday ordered issue of notice to the prosecution on a petition seeking cancellation of the bail granted to Nithyananda Swami of Nithyananda Dhyana Peeta in a rape case, the trial of which has been pending against him before the Ramanagaram District and Sessions Court since 2014.

The petition was filed by K. Lenin, who was a complainant in the case. It has been alleged in the petition that Swami Nithyananda had fled the country with an expired passport, but in the applications filed seeking exemption of appearance before the trial court the claim was made that he is still in the

The Congress is opposed to the proposal of Andhra Pradesh Chief Minister Y.S. Jagan Mohan Reddy to scrap the Legislative Council.

Addressing the media here on Friday, APCC working president N. Tulasi Reddy said it was Mr. Jagan Mohan Reddy's father and former Chief Minister Y.S.

Rajasekhara Reddy, who had revived the Council in 2004.

'Scrapping the Council is tantamount to betrayal of Rajasekhara Reddy," Mr. Tulasi Reddy observed.

It was ironic that the YSRCP that had hired a noted lawyer for ₹5 crore was talking about the money being spent on the Legislative Council, which was an important

demon, he said.

By:re was no b∈Council, the Cxhibited his landing, Mr. Tid.

"Ifster can functilace of his chy did the YSROh the capitalasi Redd 

pensive advocate for a fee of ₹5 crore and paid ₹1 crore as advance to fight writ petitions filed by Amaravati farmers in the court. Other top lawyers have been intimidated not to represent poor farmers, Mr. Naidu alleged and asked where the State was heading.

Td Cou'e Referring to Mr. Jagan's whe<sup>1-</sup> claim that the word "capital" did not exist in the Indian Prin<sup>X</sup>-

Constitution, Mr. Naidu asked why the Chief Minister had introduced a Bill for the establishment of three Capitals in the State.

Mr. Naidu said that the Chief Minister had cited his running the government at Visakhapatnam in the aftermath of Hudhud cyclone. But there was no comparison between the two

out fa-TING 2,30ty pattici-Nadiislaun of

Shobha Karandlaje

the Seva Bharati for causing communal division.

Ms. Karandlaje had tweeted that Hindus of Kuttippuram grama panchayat in Kerala's Malappuram were denied water supply as they, supported the Citizenship (Amendment) Act (CAA).

She further tweeted that Kerala was taking baby steps to become another Kashmir. Her tweet, shared widely across the country by the BJP and its sympathisers, kicked up a row, bringing a Muslim family of Payinkannur in Kuttippuram in the Sangh Parivar's line of fire.

The police conducted an investigation on the basis a complaint filed by lawyer

K.R. Sndran and foundegations of denyiHindus for suppoCAA were false, nd to be a false made with the if creating committerment," said Drintendent of Polil Kareem.

BJP:sident Ravi Thelatl the police for takagainst Ms. Karansaid it exposed ature of the police knows how to hansaid.

#### Nominations invited for **ACJ** awards

SPECIAL CORRESPONDENT

The Asian College of Journalism (ACJ) has invited nominations for the ACI Awards in Investigative Journalism and Social Impact this year. The Media Development Foundation (MDF), the trust that administers the ACJ, announced the opening of nominations on its website. Journalists and news organisations can submit entries for consideration.

Investigative journalism, for the purpose of the award, will be that which exposes wrongdoing in public interest. The criteria will include the nature of the investigation, its impact and extent of public interest involved. The award will comprise a trophy, citation and a cash prize of ₹2 lakh.

This award in this category has been instituted in memory of K.P. Narayana Kumar, an ACJ alumnus from the class of 2000 who died in 2019 at the age of 39. It will honour reporting on important subjects with the potential to have social impact, spur reforms and find solutions to problems.

Social impact journalism involves identifying a latent social problem and reporting in a way that points to solutions. Both will be presented on May 3, which is World Press Free dom Day. Nominations can be sent in till 5 p.m. on February 24. Details can be accessed and uploaded at http://www.asianmedia. org/acj/acj-awards-2/ acj-awards-overview/.
